OUR HISTORY

LabTECH Environments, offers a wide range of laboratory and LabTECH solutions for government, science, research, safety, biotech, pharma and education markets. Our team of industry professionals, e-commerce capabilities, and supply-chain management services enable clients to procure products from LabTECH, third-party partners, and OEMs at competitive pricing.

OUR STORY

Our story centers on our expertise in lab equipment, instruments, furniture, and supplies. Plus our 35-year experience and a vision for digitally-driven labs with automation, VR, and full connectivity.

OUR VISION

Our vision is for a connected, digitally-driven lab environment. We integrate the instrumentation, the people, safety, and proper AI, VR and AR. We don't repackage, we reinvent the lab with technology. It is integrated, culminating in an immersive lab experience.

OUR MISSION

Our mission is to democratize access to fully integrated laboratory solutions, empowering individuals and organizations to advance science and contribute to a better world.

Here is the reason
WHY CHOOSE US

LabTECH Environments (a division of award-winning SDVOSB Materials Technology & Supply LLC founded in 2017) is a full-service lab integrator that plans, provides, installs, certifies and manages a complete portfolio of laboratory and LabTECH solutions for laboratory, automation, safety, supplies and equipment in government science, research, safety, and education markets.

We earned the International Facility Management Association's Award of Excellence for Innovation (IFMA) in the Lab, a unique honor.

OUR FOUNDATION FOR LABORATORY IMPLEMENTATION

Safety and Security

Lab safety is a top priority in today's world - environmental, physical, equipment, data and personnel security. The secure eLab, safe, continually cleansed, monitored, and tested for proper operation is a safer environment for the staff, researchers, patients and the world.

Equipment

Laboratories should support scientists by facilitating the integration of scientific equipment and establishing collaborative procurement opportunities, which will give greater access to cutting-edge solutions.

Facilities

Many laboratories are outdated, and some are unable to meet the needs of their stated programs or require up-to-date tools for people to complete their work in service. We are here to assist.

Information Technology

We have years of experience with advanced technology in the laboratory environment - collaboration, data, communications, analysis. In the built environment, the cyber technology needs of the community, and recognition of the critical importance of IT, is a cornerstone of the LabTECH approach to assisting laboratories succeed.

Diversity Supplier Certifications

WHAT WE DO?

PLAN, DESIGN, PROVIDE, INSTALL, CERTIFY & MANAGE

Facility Analysis & Equipment Layout Selection

Our consulting specialists can schedule an in-person evaluation of your facility, take detailed measurements to ensure that equipment will fit in the desired locations, advise on utility requirements, and craft a detailed specification and budget for the complete, integrated system.

Design Analysis & Support

SDVOSB Lab's consulting professionals can help you analyze the appropriate factors and provide you with the best designs, equipment, warranties, most energy-efficient solutions, and a network of services and support.

Installation Support

Our team of experienced installation professionals work closely with contractors and facilities personnel to ensure that the proper utilities and connections are available, that deliveries take place on schedule, and the final installation meets your requirements.

Testing, Training & Support

Our SDVOSB Lab professional staff can provide testing, training and cleaning services to bring your staff up-to-speed on the equipment and assure you of a safer new or renovated laboratory environment.
